Tribute Wall

GH

“ Kendall("Ken") was a very long time friend who, I just found out, is gone. I had tried EMail him lately and just attempted find his phone. The funeral home came up with his announcemet; Shocked!

Ken and I grew up togther, on West Jefferson St, Grand Ledge, MI. We were constant friends from kindergarted through Freshman at, what is today, WMU in Kalmazoo.zoo..zoo. We were in each ohering wedding party and, until I enteried the Army, remained in touch. Ken stayed in the Grand Ledge and I mocved to Monroe for my teaching job.

I have great memories of times with Kendal, ice skating as the old softball fied, cardboard-sliding between the Stephens Furniture Store, following the fire truck on our bikes when possible. There was smoking and a little drinking along way. We both dated,double ourdated and, on occassion, triple-dated when I could borrow our three since I had access to our 'station-wagon with tre seats. Summers we alternated driving to Charlotte and weekends in Traverse City but always ready for Monday work day...HA

Ken is sorely missed by me but defintely not forgotten
