DI

“ When I picture Rick, I see him busy driving his tractor in their new garden. He said Karen would think up great ideas, and then they would work together to make them happen!  
I also treasure his joyful smile, the twinkle in his eye, and a funny comment he would make. I also admire his dedication to support Karen’s dad in his final year of life.  
Even though I didn’t spend much time with Rick, he leaves a strong impression of a man with very strong character and skill who ran the race with his head up.  
I pray for God’s guidance and strength for Karen and Rick’s extended family during this challenging time. 😊❤️ Diane
